LINING OUT STOCK:

RECEIVED
FEB 7 1933
U. S. Department of Agriculture
TO THE TRADE ONLY.

We book all Orders with the understanding that same shall be Void should injury befall the stock from Flood, Drought, Fire, Frost, or other causes beyond control.

We exercise the greatest care to keep our varieties pure and true to name, and hold ourselves in readiness at all times to replace, on; spot or proof, all stock that may prove otherwise, or refund the amount paid. But it is mutually agreed between the purchaser and ourselves that we shall not at any time be liable for any amount greater than the original price.

Stocks from beds or field will be puddled and well packed in moss, and that from pcts carefully wrapped so as to reach you in first class condition.

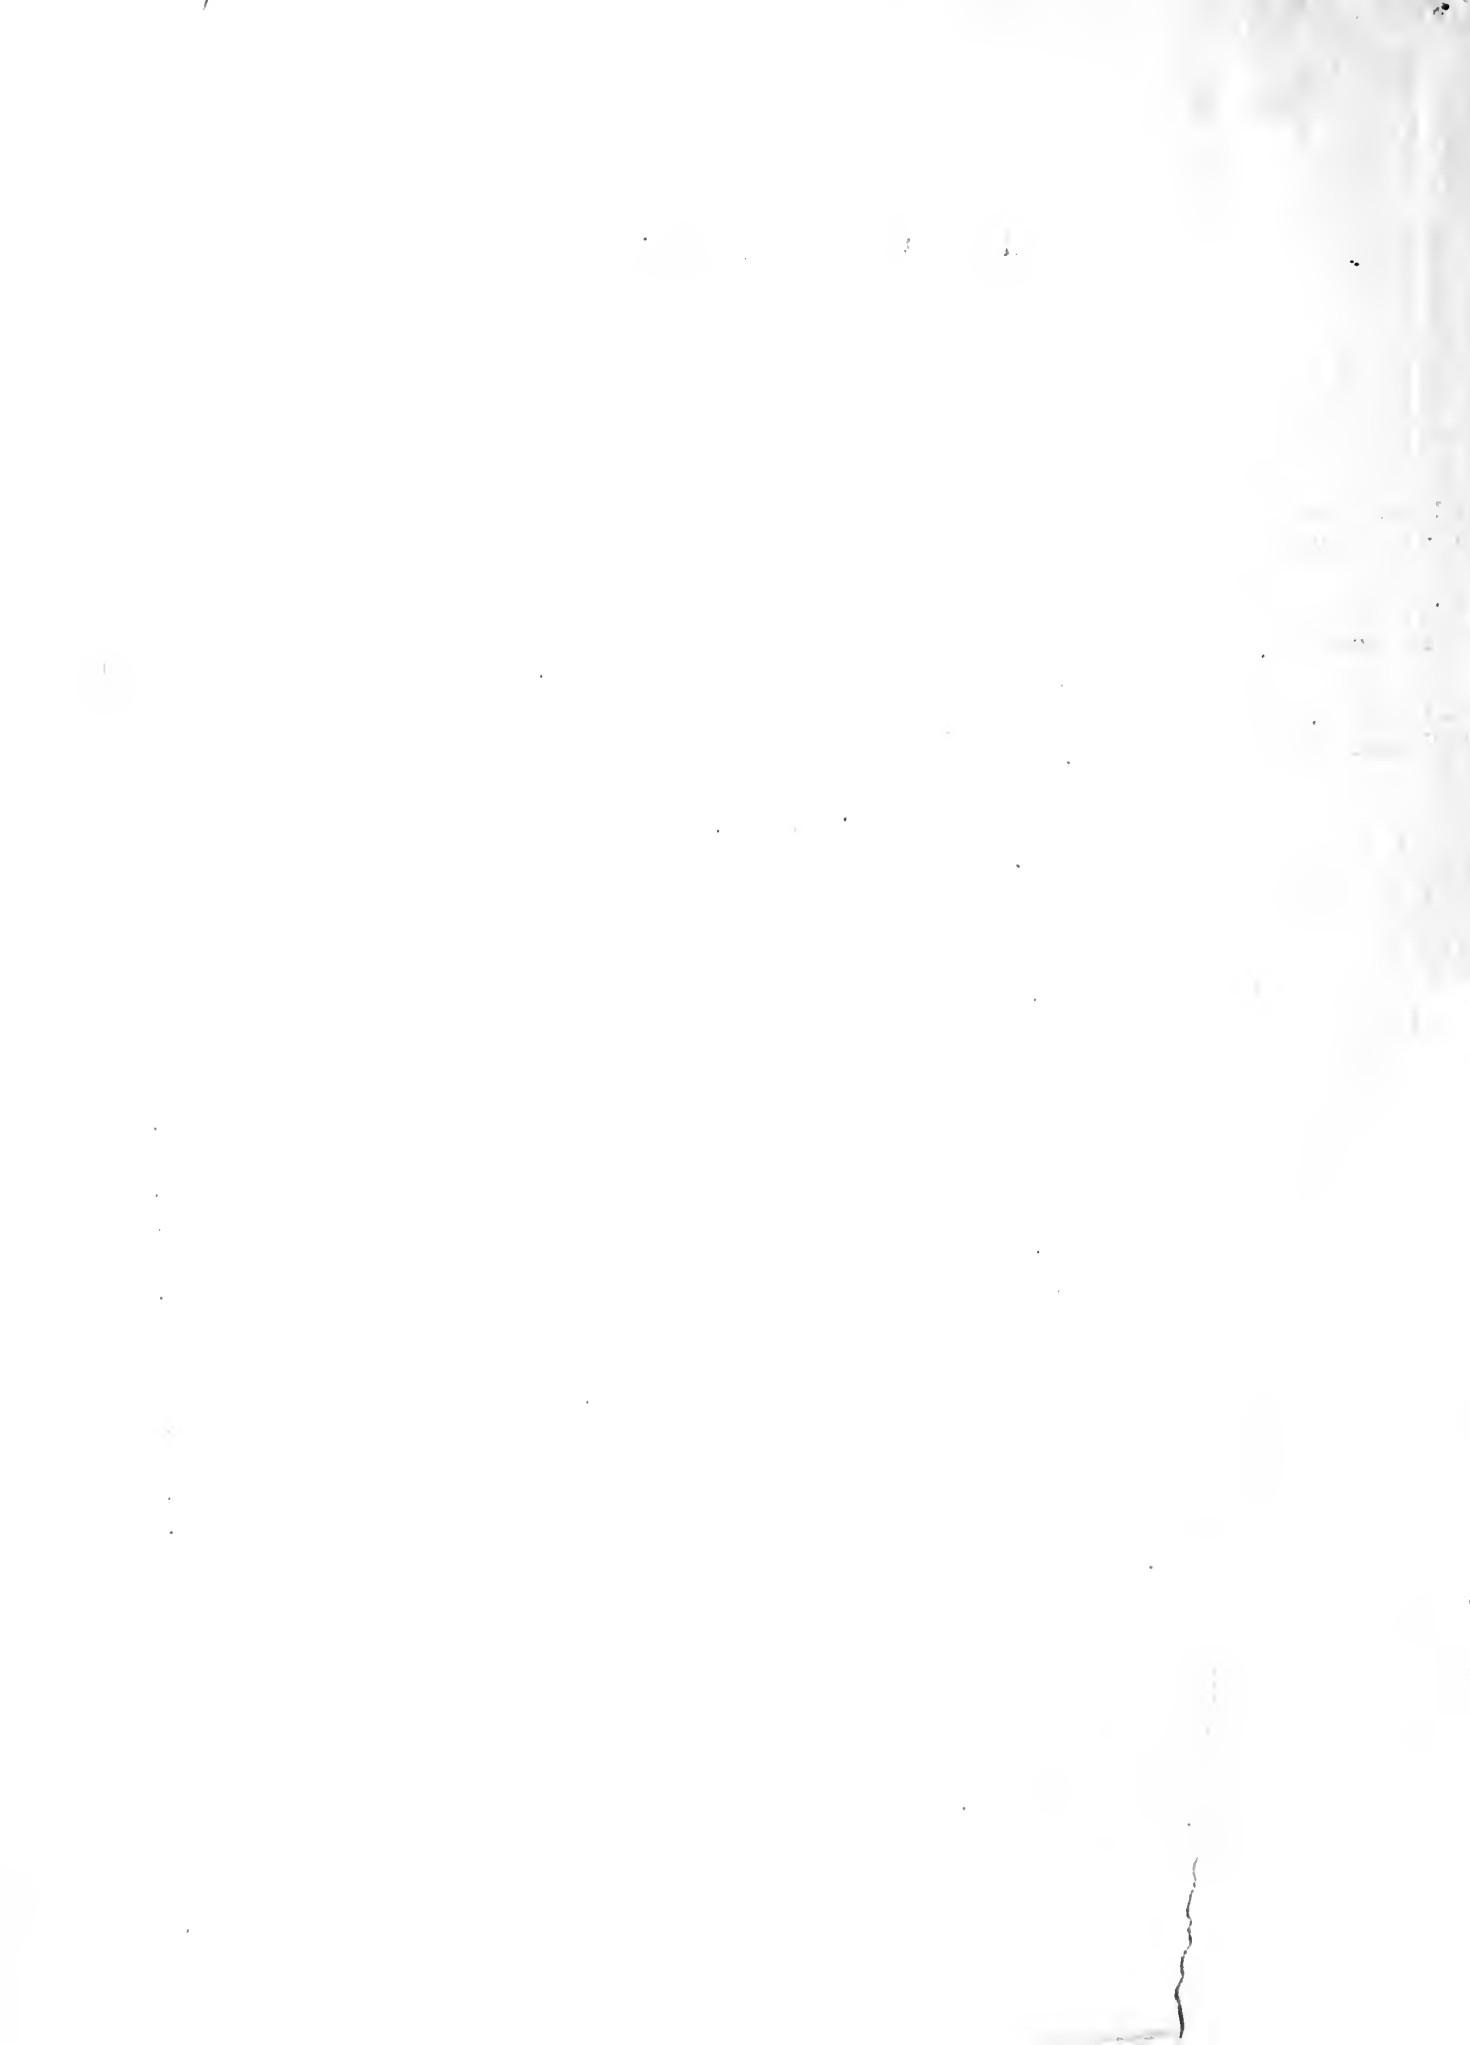

We recommend that orders for lining out stock go forward by express, and in absence of definite instructions they will be shipped in that manner.

PLEASE NOTE; In this list "C" indicates stock grown from cuttings, and "S" from seed. "O" indicates not transplanted, and each "T" one transplanting.

CONIFERS:
